

Mito aura alta 60 datasheet

Ring-shaped LED ceiling luminaire for high rooms with double-sided light emission and a diameter of 60 cm. There are two lighting effects to choose from: narrow directs diffuse light upward and concentrated light downward to create perfect illumination for every application; wide directs diffuse light upward to indirectly illuminate the ceiling and expansive light downward.

Version with an integrated power supply unit for surface mounting, connection to 230 V AC power supply. Adjustable via Occhio air or DALI, alternatively with a trailing-edge phase cut dimmer*. The color temperature is continuously adjustable via Occhio air or DALI from 2700–4000 K (optionally 2200–3500 K) or can be preset (2700 / 3000 / 3500 / 4000 K).

Mito aura alta 60 DALI connection diagram

A maximum of 32 Mito aura alta units can be assigned to each DALI circuit.

The Mito aura alta requires two DALI addresses per luminaire, which enables control of the top and bottom sides via their own respective DALI address. The maximum output is reached if both DALI luminaires (top and bottom side) are set to maximum brightness (60 W = 30 W up and 30 W down).

The Mito aura alta units can be organized into as many as 16 groups and equipped with an additional 16 scenarios (predefined settings).

Using a DALI short address, they can be actuated and configured individually. In addition, the bi-directional data transfer lets users query the state / status of individual luminaires.

You can find more detailed information at www.occhio.com/dali.
